DETAILS:

The Automatic Wall Mounted Hand Sanitiser Dispenser is ideal for locating in reception areas, waiting rooms, business entrances, or any high-traffic location where passers-by are present.

Designed to help prevent the spread of coronavirus and falls in-line with the UK Governments strategy to slow the transmission of COVID-19.

The handsfree, sanitising station dispenses anti-bacterial gel via an automatic motion sensor is complete with a drip tray to maintain a clean hygiene station.
