

2m x 2m FABRILUX® LED Lightbox Exhibition Stand U-Shaped Shell Scheme

Please note, all shell scheme exhibition structures vary in size. Please check with your exhibition organiser to make sure your floor space (inside the structure) is large enough to accommodate this LED Lightbox kit.

For this kit to fit within your shell scheme space, you must use the light boxes in the exact layout shown on our floorplan so please bear this in mind when designing your artwork.
