Holder for Up To 1000ml
Hand Sanitiser Bottle

DETAILS:

The Free Standing Anti-Viral Hand Sanitiser Station is a portable hygiene station that can be placed anywhere you where you have customers or employees passing by.

This highly effective sanitiser station is lightweight and portable and can be quickly deployed to any location it is needed. Supplied with a 5mm acrylic enclosure that holds the hand-gel dispenser for easy access.

At the top of the aluminium frame, there is an A4 snap frame poster holder that is ideal for displaying safety information or NHS track and trace QR codes.

The rectangle steel base provides support and stability for safe use in high traffic areas. Simple self-assembly is required on delivery.

It is ideal for use in any public location such as shops, post offices, pharmacies, hospitals, doctors, dentists as well as offices, schools, nurseries, universities, colleges, and any location where hygiene and virus control is needed.

The sanitiser enclosure and the poster frame are height adjustable and can be assembled at any height making it ideal for use with children, adults, and wheelchair users.
