- Sound Absorbing Acoustic Foam Core
- Choice of Fabric Finishes
- Can Be Mounted in Any Configuration
- Mix and Match Modular Acoustic Panels
- Manufactured in the UK

DIMENSIONS:

RECTANGLE

Tile construction is from 6/9mm medium density fibreboard (MDF) adhered (using water based adhesive) to 18mm sound absorbing foam.

Sound absorbing foam is tested to **BSEN ISO 354** and has an inferred noise reduction co-efficient (NRC) of 0.43. Based upon test reports 1306-1040 to 1042 and C/23213/T01.

On average each tile is manufactured from materials with 71% recyclable content.
