NightView™ from Tensator® is the worlds first reflective webbing. It is available in all Tensators standard webbing options and customised webbing.

STANDARD WEBBING OPTIONS

WIDE WEBBING (150mm)

150mm Wide Webbing is a highly effective, low-cost method of communicating messages to your customers and employees. It gives plenty of scope for printing your logos, branding, promotions and safety instructions in full colour. Available in a range of standard colours and messages (shown below), or printed in any colour to order.

DIGITAL DYE-PRINTED WEBBING

Digital dye-printed webbing is available for a wide range of Tensabarrier® products containing 50mm or 150mm retractable webbing. Tensator is an expert in designing webbing and offers a design service to prepare customised artwork, ensuring that your design not only complements your environment but enhances your queuing system. Text, graphics, messages & promotions can be applied to your queue management products with your own unique design content.

Tensator's digital dye-printed webbing service offers the following benefits:

- High quality print reproduction
- Durable dye prints, not transfers
- High degree of permanency
- Full colour print options - no cost limitations
- Single or double-sided print options
- Option to upgrade to double-sided prints free of charge
- Graphics can be designed to your specification as part of our customer service
- Rapid turn-around times from artwork sign-off
